by 2025
waste generation
will be 377,000
tonnes per day

WASTE
TECHNOLOGY
INDIA EXPO
BECAUSE WASTE MATTERS

About the Expo

One of the prime objectives of Clean India mission is to put in place effective waste management systems across the country so that waste is segregated at source, processed, recycled and also converted to energy. The last three years have seen Municipal bodies, private agents and solution providers focus more on technology and systems. Waste – be it solid or liquid, municipal, electronic, food or organic needs specific solutions right from the collection point disposal and conversion. Waste Technology India Expo facilitates the coming together of end users, solution providers, stakeholders, waste recyclers, dealers, retailers and local authorities.

Why the Expo

The Government of India's new regulations and directives for waste management covers all aspects : Collection, segregation, transportation, storage and conversion/recycle/reuse. Waste to Energy technology can be successful only if we have quality waste. Therefore, the challenge is to identify solutions for tackling both the phases of waste management that includes production of electricity, biogas, fuel ,cement & compost to manufacturing of by-products and its recycle & reuse.

World over, technology like IOT, Vehicle Tracking and different apps are deployed for collection and transporting of solid waste. Special attention is now being paid towards technology developments for conversion of waste. A multi-parameter waste –to-energy tool/models have been emerged, like combustion process, gasification, plasma gasification, Pyrolysis etc. Today, more than 2000 plants of WTE are in operation globally, treating approximately 250 million tons of waste annually by over 2000 plants in operations. In addition, recycling, reuse and scientific composting are the other practical options.

Waste Technology India Expo & Conference-2019 will address these different facets of waste collection & conversion. Companies operating in Waste Management in India and abroad will showcase their models, business operation strategies and give presentations at this event. The technical experts working in Waste Management Sector, academicians and research scholars can participate in this conference and also can present their papers.

SMART WASTE SOLUTIONS FOR A NEW INDIA

Waste – be it solid or liquid, municipal, electronic, food or organic – has been a prime concern to India. There is an increased need for specific waste solutions right from collection, sorting, processing, treating, converting, recycling and reusing. Waste Technology India Expo facilitates the coming together of end users, solution providers, stakeholders, waste recyclers, dealers, retailers and local authorities. One of the prime objectives of Clean India Mission is to achieve very effective waste management systems across the country. India is in the process of adopting different technologies for waste collection and conversion, creating a huge business potential.

Why Exhibit

SHOWCASE YOUR SOLUTION

With Pollution Control Board's rules & regulations getting tougher and green quotient getting higher, municipal bodies, railways, industries, real estate players and other organizations are looking for the latest waste management solutions.

With over 3, 000 visitors, Waste Technology India Expo is the only platform that brings together the solution seekers like municipal bodies, Industries, hospitals, hotels and institutions and solution providers.

GATEWAY TO THE INDIAN MARKET

The booming Indian economy, the international tie-ups, increasing MNCs, etc., have all necessitated higher standards of waste management, cleanliness and hygiene both in the production process and in the premises. To meet the varied demands of '3R' in various sectors across the country, it is essential to understand the vast Indian market.

Waste Technology India Expo is the platform for the international waste management professionals looking to invest in India. It helps them gain access to one of the highly buoyant market of Asia and find channel partners and distributors.

The Expo is India's only premier trade event serving the entire waste solutions such as collection, hauling, disposal, construction & demolition, facility/site operation and landfill operation mechanism. An opportunity you cannot afford to miss.

EXHIBITORS PROFILE

Equipments & Tools

- Sorting & Handling Equipment
- Conveyors
- Hydraulic Lifts
- Industrial Loaders
- Bulldozers
 - Compacting Loaders
 - Electric Hoists
 - Forklifts
 - Sideloaders
- Crane
 - Bridge Cranes
 - Gantry Cranes
 - Grapples
 - Jib Cranes
- Vibratory Feeders & Recycling Screens
- Balers
- Compressor
- Pulverizers
- Shredders
 - Chipper Shredders
 - Paper Shredders
 - Plastic Shredders
 - Refuse collection products
 - Refuse disposal equipments and vehicles

- Incinerators
- Stainless Steel Tanks
- Waste Heat Recovery
- Forklifts
- Heat Exchangers
- Liquid Filters
- Optical Sorting (machine vision systems)

Waste Management

- Collection Tanks
- Garbage Bins
- Garbage handling systems
- Vacuum Emptier/Truck Mounted
- Mobile Toilet
- Dumpers
- Road Sweeper/Truck Mounted
- Compactors Municipal
- Wet Waste Management

Wastewater Systems & Solutions

- Equipment & Systems
- Sewer Treatment
- Industrial Wastewater Treatment/recycling

Waste Recycling

- Waste to Energy
- Bio-gas
- RDF
 - Waste and biomass
 - Pre-treatment of fuels & other materials
 - Sorting, shredding and processing technology
 - Thermal treatment, plant engineering, maintenance
 - Incineration, pyrolysis, gasification
 - Anaerobic digestion
 - Composting, biological treatment
 - Sewage sludge treatment
 - Biofuels production
 - Recycling technology secondary raw materials and material lifecycles
- Medical Waste disposal and Treatment
- Hazardous waste management
- Organic waste treatment
- E-waste
- Plastic waste
- Food Digester
- Food Waste Composting Machine

VISITORS PROFILE

- Hotels
- Hospitals
- Manufacturing Industries including Pharma and chemical
- Food Processing Industry
- IT Hubs
- CSR Heads - Corporate
- Facility Management Companies
- Builders
- Food Court (Shopping Mall), Industrial Canteen.
- Infrastructure Companies
- Airport Authority
- Indian Railways
- Officers of Municipal Corporation across India
- State and Central Government Departments: Environment, Industries, Urban Development...
- State and Central Pollution Control Board
- Industry Specific Smart Cities Consultants
- Swachh Bharat Commissioner of every ward
- State Industrial Development Corporations
- Industrial Area Associations
- Minister of Health & Environment
- Chairman of various Government Bodies
- Secretaries of various State and Central Departments
- Mayors
- State Transport Corporation
- Educational Institute/Religious place
- Defence
- Academicians, Vice Chancellors of Universities, Directors of National and State Institutions, Scientist, Principals, Research Students, and NGO's

There shall be invited lectures from Eminent experts from India and abroad and poster presentation by research scholars and NGO's.

EXHIBITION

CONFERENCE

CONFERENCE DAY

FEBRUARY 13, 2019

CONFERENCE

Platinum Partner

Investment:
₹5,00,000/-
(+18%GST)

Logo Branding

- Registration Backdrop
- Stage Backdrop
- Delegate Kits (summit topics and speaker details)
- Website with a link to the Partner's website
- The online registration page of the delegates with the link to the Partner's website
- The invitation cards
- Waste Technology Website

Print Branding

- Coverage in Clean India Journal: Interview
- One Full Page Advertisement in Clean India Journal
- Standees at the Registration Counter & Networking Area
- Advertisement in the show catalogue

Onsite Branding

- Platinum Partner Badges
- 10 minutes speaking slot & 5 minutes Q&A
- Video presentation of the partner during lunch break on Plasma TV (Video presentation to be provided by the partner)
- Announcement at regular intervals thanking the Partner. (At the beginning, during session and tea break)
- Partner Brochure insertion in delegate kits
- Standees at the Registration Counter & Networking Area
- Advertisement in the show catalogue
- Table Space in the conference hall

Gold Partner

Investment:
₹3,00,000/-
(+18%GST)

PRE-EVENT

Logo

- All the mailers
- The hard copy invites
- The co-branded e-invite
- The advertisement released in newspapers / magazines
- The reply message to the visitors' registration on Waste Technology India Expo's website.

Branding

- One full page colour advertisement in three edition of Clean India Journal Print & Digital magazine
- Three product writeups in the Clean India Journal show issue, under the products / Systems section page

Digital

- 100 words company profile in the partner's section (with logo), on the Waste Technology India Expo website, with the link provided to the company's website
- Banner ad on Waste Technology India Expo's website home page with hyperlink to company's website

ON-SITE Deliverable

- 40sqm bare space at the expo
- Company's MD / CMD will be invited as the Guest of honour for inauguration of the show
- Four free delegate passes for the conference

Logos

- On all the on-site branding
- On conference backdrop

Branding

- Interview of the MD / CMD will be published in Clean India Journal's post show issue
- Company brochure in the conference kit
- One standee in Business lounge
- One full page colour advertisement in show directory

POST-EVENT

- One round of emailer to the entire Waste Technology India Expo's visitor's list
- Logo on all the post-event Thank you marketing collaterals

Gold Partner

Investment:
₹4,00,000/-
(+18%GST)

PRE-EVENT

Logo

- All the mailers
- The hard copy invites
- The co-branded e-invite
- The advertisement released in newspapers / magazines
- The reply message to the visitors' registration on Waste Technology India Expo's website.

Branding

- Two product writeups in the Clean India Journal show issue, under the products / Systems section page

Digital

- 100 words company profile in the partner's section (with logo), on the Waste Technology India Expo website, with the link provided to the company's website
- Banner ad on Waste Technology India Expo's website home page with hyperlink to company's website

ON-SITE Deliverable

- 27sqm bare space at the expo
- Company's MD / CMD will be invited as the Guest of honour for inauguration of the show
- Two free delegate passes for the conference

Logo

VIS Group

Established in the year 2000, VIS Group has emerged as the voice of the country for its visionary approach to create a Smart and Sustainable India. Organizer of specialized trade shows and publisher of industry specific premium vertical magazines, VIS Group is driven by innovation, teamwork, integrity and client partnerships. Some of the flagship events organized by VIS Group are – Clean India Technology Week, Smart Mobility (TrafficInfraTech Expo & ParkingInfraTech Expo), IFM Summit and International Housekeepers' Summit. Over the years, VIS Group has also expanded its operations to the Middle East with an office in Dubai – Virtual Info Systems Exhibitions & Conferences.

Clean India Journal

India's premier monthly magazine on cleaning technologies, Clean India Journal has evolved since 2005 to encompass multiple range of solutions for cleaning, hygiene, washroom hygiene, sanitation, linen care, car care, waste and facility services.

Acclaimed as the Voice of the Indian Cleaning Industry, Clean India Journal provides up-to-date information on new technologies, trends in the national and international markets, products and systems and services. It facilitates interaction between the supplier and end-user through the magazine and various conferences organised through the year.
